

ANNOUNCEMENT

DSI is proud to introduce Jason Sternik
Diamond Blade Technician

Jason Sternik

To further advance the DSI commitment to servicing the stone industry throughout Canada and the U.S, we are pleased to announce that Jason Sternik has joined DSI in the position of Diamond Blade Technician.

Jason has first hand knowledge of the stone industry first as a diamond blade technician and subsequently as an owner and operator of a quarry in the U.S.A. These skills acquired from working both sides of the business will be of great benefit to our stone cutting customers. Jason can offer advise on proper specification of diamond segment as well as provide “on site” servicing by retipping and tensioning the blades at your place of business, even eliminating the need to remove large diameter blades from the saw.

This is an exciting addition to the DSI team and we welcome inquiries of what Jason and DSI can do to maximize your diamond blade performance. As always Shannon and Sue, your inside sales Representatives, will be pleased to take your calls.

Shannon Nemis
Inside Sales Co-ordinator

Suzanne Zemlickis
Bilingual Customer Service Representative

Thank you for your business and we look forward to continuing to service your diamond needs.

Thank you,

Don Graff
President
